THE FIFTH TRANSNATIONAL PROJECT MEETING

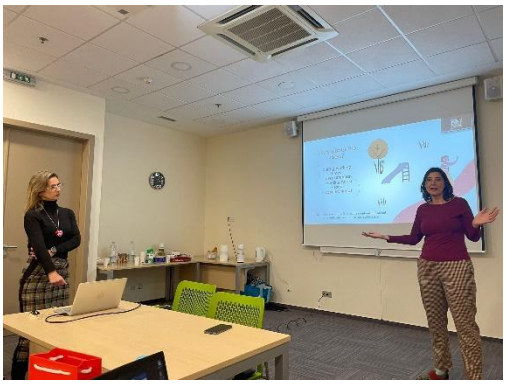
SUSTAINABLE SERVICE IN DS

Zagreb, Hrvatska udruga radnih terapeuta

Almeria centre

The 5th transnational meeting of the Sustainable Service in DS Consortium and the 2nd one in person was organised by the Croatian Association of Occupational Therapists in Zagreb, Croatia. In fact, this meeting was a hybrid one as we had some members who were not able to come in person. So, regardless of the challenges, we are using all that is at our disposal to have the job done.

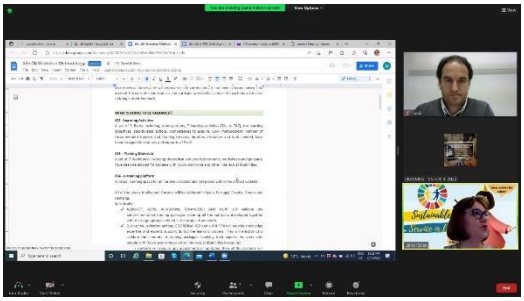
In-person meetings have that crucial factor that we spend a lot of time together, through professional, but also social activities, unifying our work, exploring the social and cultural background of the hosting partner which ensures more tangible results, but also exchanging of beliefs and experiences which again provide the implementation of innovative methods.



The first main topic of the meeting was preparation for a transnational learning activity (blended mobility of adult learners) which will be organised by ASINDOWN in autumn 2022, ASIDOWN has presented ideas that they have. This activity will be organised with PDS and Support from all the participant countries in Valencia (Spain) as a form of a common learning activity.

As during the past months members of the Consortium have produced tangible outcomes in a form of the seven Service-Learning Training Activities (SLTAs) and their afferent Training Materials (TM) in the framework of Intellectual Output 2 (IO2) and Intellectual Output 3 (IO3) we have discussed made alterations and the unification.

The third topic of the meeting was the use of the e-Training Platform. IED has presented its functionality and developed ICT learning tools for people with Down syndrome. Partner organisations have joined in using it and resolving the needed challenges.



Last but not least we have had fun together sharing experiences of the project implementation, the impact it has already had in our surroundings and connecting, even more, all with the aim of creating the resources needed for an occupationally just and inclusive world.

Let's make a better world together!

For more information on the training process and activities, please **STAY TUNED** and periodically visit our project website **www.sustainableserviceinds.eu**
